Zilog Inc., is a trusted supplier of application specific, embedded system-on-chip (SoC) solutions for the industrial and consumer markets. The company was incorporated in California in 1974 and reincorporated in Delaware in 1997. From its roots as an award-winning architect in the microprocessor and microcontroller industry, Zilog has evolved its expertise beyond core silicon to include SoCs, single board computers, application specific software stacks and development tools that allow embedded designers quick time to market in areas such as energy management, monitoring and metering and motion detection.
